

# INSTRUCTIONS FOR PRINTING SIDDUR

This Siddur is provided to you for your personal use. If you are a congregation leader, you may print as many copies as you need and use it for your congregation Shabbat services. Please note that the Siddur represents many years of work in its editing and final assembly. It is copyrighted and I ask that you do not abuse the “fair use” concept. The Siddur is provided as an Adobe Acrobat file which allows only printing and not editing. If you do not have Adobe Acrobat on your computer, you may download it or find it included on this CD.

## HEBRAICA FONT

You will probably have to install the Hebraica font provided on this CD or in the website folder. Follow your operating system’s instructions to install the font.

## INDIVIDUAL USE

If you just want one or two copies, you may find it easier to print them on your printer. There are a total of 95 pages and a cover. You can print the Siddur either single sided or, if your printer supports the option, double sided. Set your printer for the highest quality print and use the highest quality and heaviest paper you can get. Print the cover on heavy card stock.

## MANY COPIES.

If you want many copies then you have two options. One is to print the Siddur using a printer and then make copies on a copy machine. Use the highest quality setting on the printer and copy to the heaviest paper that the copier will take. If the copy machine is computer controlled and has the option of printing directly from Adobe Acrobat files, use this option for your copies. Again, use the highest quality settings and heaviest paper. Print or copy the covers on heavy card stock.

## BINDING THE SIDDURIM

If you are making just one copy and you don’t mind putting up with a three ring binder, you can use this option. However, the best option is to take the copies to a office supply store or even some print companies and have them put the plastic spiral binding on it. This is NOT the comb bindings which are fine for a report or something but not for this Siddur. The spiral bindings will allow you to fold over the book for use without damaging the pages. I suggest adding a heavy card stock back cover to the book for added strength.
